## About DevOpsDays London

DevOpsDays London is a highly respected and well-attended conference for professionals in the DevOps industry. The event brings together thought leaders, practitioners, and industry experts to share their knowledge and experiences, exploring the latest trends and technologies in the field.

This year we're a single day conference and expect approximately 200 attendees.

## Benefits of Sponsorship

By sponsoring DevOpsDays London, your company will have the chance to position itself as a thought leader and innovator in the DevOps industry. This is a unique opportunity to gain valuable exposure and establish your brand as a trusted and respected player in the market.

Not only can you showcase your products and services to a highly targeted and engaged audience, but you'll also have the chance to participate in discussions and interactive sessions, and to network with attendees during the conference breaks.

This is a great opportunity to build relationships with key players in the DevOps community and to stay up to date on the latest trends and technologies in the field.

Sponsoring DevOpsDays London will expose your brand to practitioners, managers, and executives from companies of all sizes and industries including retail, banking, manufacturing, medical technology, education, government, and consulting. By supporting DevOpsDays you will:

- Increase awareness of your brand with decision makers and practitioners at organisations large and small.
- Engage with new customers for your products and services.
- Discover what features and products potential customers may be looking for.
- Complement your current and future sales campaigns.
- Promote your vacancies to a community of practitioners.
- Enhance your profile within the DevOps, Cloud Native and SRE communities.

Unlike most conferences, DevOpsDays London encourages our sponsors to fully participate in the conference – attending talks and Open Spaces, and even suggesting Open Space topics. This gives you a unique experience and a chance to engage deeply with attendees.

# Frequently Asked Questions

## 1. When and where is the event?

DevOpsDays London will be held on 17th September 2026 at the City and Guilds Building at Imperial College London, SW7 2AZ.

## 2. What are the payment options?

We can accept payments via bank transfer (preferred) or credit card. Sponsorship is not confirmed until payment is received, and as such, no sponsor benefits – such as the logo on the website – will be available until we have received the full payment.

## 3. When do I need to pay?

If the event is more than 30 days away, the payment terms are net 30 from the date mentioned on the invoice. If closer than that then immediate payment is required.

## 4. What are the behaviour expectations for sponsors?

Sponsors are expected to follow our Code of Conduct. Stands and advertising should not be sexualised. Activities that are disruptive to the event will not be tolerated. Sponsors are welcome to attend all aspects of the conference, including talks and Open Spaces.

## 5. How do I contact you about becoming a sponsor?

Fill in [this form](#) if you've already decided. Thank you!

If you have questions that are not answered here, please email [sponsors@devopsdays.london](mailto:sponsors@devopsdays.london).

## 6. What does the stand space include?

All stands come with a table, 2 chairs, and a power supply. Conference WiFi is freely available to use. TV screen rental is available for an extra fee. Stand location is set by the organisers based on the venue layout.

## 7. Do we get badge scanners or contact info for attendees?

No. As a community-organised and attendee-driven conference, ensuring attendee privacy is important to get the quality of attendees and contributions we need. You are free to gather contact info via your sponsor table from those who wish to opt in. Our badges do not have barcodes on them.

## 8. Can we do giveaways or raffles?

Yes. Any raffle prize draws or giveaways will be done during the closing ceremony. We will give you a short time slot for your giveaway activity. Just let us know.

## 9. What opportunities are there to interact with attendees?

We're an intimate, community-focussed event with limited sponsor and attendee numbers. The sponsor hall is also where food is served and where attendees will be during breaks.

In order to encourage more interactions, we run a raffle for attendees: every attendee will receive a card to collect stamps from the sponsors. We will provide the stamps and prizes. While you can't exchange stamps for attendee details, this will provide you with a good opportunity to engage with attendees.

We encourage you to fully participate in the conference, attending talks and open spaces alongside the attendees you want to reach. You're even welcome to propose your own open space topics.

## 10. Can we ship items to the venue?

No. Unfortunately the venue is unable to accommodate advance shipping. It is also your responsibility to remove all the material you came to the conference with by the close of the event.

## 11. What kind of swag should I bring?

It's up to you, but the organizers of DevOpsDays events prefer sustainable items. If you need ideas, please ask us.

## 12. Are there any deals for sponsoring multiple DevOpsDays events?

No. All DevOpsDays events are run independently by local practitioners in that city. DevOpsDays is an umbrella brand we use to put on the events, but there is no fiscal relationship between individual events. Therefore, we don't have any ability to combine sales with other events.

## 13. What does my sponsor ticket let me access?

DevOpsDays London is a community event and we consider our sponsors part of the community. As such we don't differentiate between sponsors and attendees. Your tickets allow you full access to participate in the event and we encourage sponsors to attend the talks and open spaces as this will allow you to better engage with attendees.

#### 14. Do any of the sponsorship tiers include a speaking slot?

DevOpsDays events don't include paid-for speaking slots. Our gold sponsorships include one minute on the main stage to address the audience. You are welcome to submit to our cfp: submissions are assessed blindly and we have had sponsors speak in the past by following this route.

#### 15. How many people do you expect to attend?

We expect around 200 attendees this year.

#### 16. Who makes up the typical audience?

Our attendees tend to skew toward the more technical roles, with a lower number of managerial, product, and design people also attending. In the past we have had attendees from a variety of company sizes, including several large companies attending across both public and private sectors including Microsoft, Ministry of Justice, The Financial Times, Oracle, Pivotal, Centrica, ING, Skyscanner, The Trade Desk, NHS Digital, DAZN, Google, Postcode Lottery, What3Words, and Credit Suisse.
